DUCK LAKE.

The most pleasant social event of the season took place last night in the town hall, on the occasion of the departure from our town of Messrs. Horace Adams and C. Newitt. It was in the form of a dance, and all the beauty and chivalry—or a big majority of it—of Duck Lake were present.

Dancing commenced at eight o'clock with the "Lancers," to the spirited strains of the full Duck Lake orchestra, under the leadership of Prof. Trotter, and continued until twelve, when the splendid repast, provided as paragon of the guests, when—after a ventriloquist performance by Prof. Gaique—the "light tantes" was resumed and kept up until towards morning, when the assembly dispersed, after having spent a most enjoyable evening.

Great regret is felt by our citizens at Horace's removal, but it is confidently hoped by some of his most intimate friends that our district needs such an attraction for him to his return to stay is only a matter of a short time.

ST. PATRICK'S DAY.

Yesterday being St. Patrick's Day services were held in the Roman Catholic church both morning and evening—in honor of Ireland's patron saint. In the evening a large congregation assembled to hear the Rev. Pere Blais lecture on Ireland. The Rev. gentleman delivered an eloquent discourse, touching on the early times when all the continent of Europe was devastated by the barbaric races from the north, and how in the midst of the war she maintained peace and holiness, and followed her history up to the present day. He also spoke of the fond remembrances of native soil so dear to the hearts of all Irishmen, and drew a true picture of the native of the Emerald soil, as we know him—kind hearted and true to country and faith. A great number of those present were of Protestant denominations, invited guests of Rev. Father Blais, and all thoroughly enjoyed the lecture. The singing by the choir was superb, and was really a treat to those present. After the lecture vespers was sung, the Rev. Pere Dommeau taking part, and with a blessing the congregation was dismissed. Every one expressed themselves delighted with the warm-hearted sentiments expressed by Father Blais. The church was nicely decorated with evergreens for the occasion, and presented a very pretty appearance.

The following are the changes to have taken place in the Battleford district if Montgomery had been elected. J. M. Shelton, Agent Dom. Lands; P. C. McDonald, Prin. Industrial School; J. H. Sully, Agent Public Works; Geo. Clouston, Carpenter Industrial School; D. J. O'Neil, Canteen Industrial School; D. Arcand, Indian Department Storeman; C. M. Danneberg, Indian Department Agent. The Indian Department farm instructors were all to be discharged and replaced by Montgomery men.

A meeting of farmers of the Oak Lake district, was held to consider the cultivation of chicory. The farmers propose growing fifty acres this year, as an experiment. Chicory is in appearance something like a parsnip. It can be left in the ground all winter without injury. Its market value is about 20 cents per pound.

OUR NORTHERN SEAPORT.

There is a good deal of talk about the disadvantage Canada suffers in the matter of an eastern seaport. The state of Maine is a serious and insurmountable obstacle in the way of a direct railway through Canadian territory to the sea. We have plenty of seacoast as well as splendid harbors on the Atlantic, but on account of the geographical position of the country west of New Brunswick and the eastern portion of Quebec, we can only reach the sea through our own territory, from points west of Quebec city, by a long and circuitous route. Hence there is great dependence upon New York, Boston and Portland in the United States. This of course only applies to the winter months. During the open season of navigation on the St. Lawrence Canada has a decided advantage over the border states, as the St. Lawrence affords a seaport right in the heart of eastern Canada. The winter navigation of the St. Lawrence has been talked of, but there is little reason to believe that it is practical. We have another route, however, to the sea, in Hudson Bay. Here is a great seaport which is usually neglected in considering our advantages in the matter of ocean ports. Hudson Bay gives the vast interior portion of Canada, a great advantage over the United States in reaching the sea. By this route the great interior portion of the Dominion is 1,000 to 2,000 miles nearer the sea than the interior portions of the United States. These northern ports are also on a direct line between our productive interior country and British markets. The development of the northern route is the one thing necessary to give western Canada a great advantage over the western and central states, in the export of grain, flour, dairy products, animals, etc. With this route opened, we would be able to pour a stream of produce, by the shortest possible line right from the source of production, into the British markets. This route would only be available in the summer to be sure, but even then it would give us an immense advantage over the western states. With this route opened our products flowing in their natural channel to market, there would be more disposition to look to the north than to the south for the greater freedom of commerce from tariff bondage.—Commercial.

"DOGS" INDEED!

Our insatiable contemporary in the
course of his wallings over the crush-
ing defeat of the local Grit candi-
date, seeks to attribute the result
largely to the official vote—to the
vote of those directly or indirectly
receiving benefits from the Govern-
ment. While not conceding the
fact, we hesitate to deprive a beaten
opponent of any little comfort he
may derive from the hugging of a
harmless delusion, what we do ob-
ject to is the observation made by
him that "Dogs do not as a rule turn
around and bite their benefactors."
"Dogs" indeed! His candidate
was very anxious before the election
to be himself regarded as at least a
prospective "benefactor" to the
Mounted Police—he made very open
bids for their support. We don't
remember that the *Saskatchewan*
then compared those useful officials
to "dogs." It would then have
described them, as they are, a splen-
did body of men, and would have
shed ink tears over their grievances
—but all this is changed, they are
now "Dogs" and, of course, couldn't
be expected to bite their benefac-
tors. But what about those who
voted for Mr. Montgomery? Our
contemporary, we presume, must
regard them—not merely as "dogs"
that follow the natural instinct of
such animals, but as "dogs" that
have the base ingratitude to "bite
their benefactors." Rather rough
on you gentlemen!

\$3,500.00.

The School Board are agitating for
additional school accommodation,
and talk of submitting a \$3,500
By-law to a vote of the people. No-
thing is more certain than that ad-
ditional room is needed, but whe-
ther we require anything like so large
an amount as that named is another
question. Past experience has
shown that it will pay the public to
carefully watch the action of their
board. \$6,200 was sunk in the pre-
sent building and if we mistake not
some of those who managed its
erection are also members of the
present board. This is sufficient

to justify the ratepayers in making a
most thorough examination of plans
etc., before entrusting the Board
with power to expend an additional
\$3,500.

The truthfulness of the view, long
held by extreme party men, that the
Liberals of Canada were always pre-
pared to sacrifice any and every in-
terest of the country for the sake of
gaining office has never been so
strongly demonstrated as during the
late general elections. Never be-
fore in the history of Canada has
one of her foremost public men ac-
knowledgeed that such principles
guided his actions. Never before
in the history of our country has
one of our best known public men
so suddenly fallen in the estimation
of Grit and Tory alike. Always
considered sincere, and known to be
able, the public were justified in
expecting that when great issues
were at stake Mr. Blake would stand
at his post, never hesitating to battle
for right; but they were disappointed.
Mr. Blake preferred the more
humiliating position and is found
sacrificing what he himself does not
hesitate to class as the vital interests
of our country, rather than endanger
even the chance of a party victory.
The feelings of regret which found
such general expression when the
first notice of Mr. Blake's retire-
ment was made public, would no
doubt, have been considerably mod-
ified had it been generally known
that so base a motive as the one
published by himself, was his only
reason for withdrawing from Parli-
amentary life. If Mr. Blake's
every act during his political career
has been prompted by motives no
higher than those which caused his
withdrawal, the public will lose little
by his retirement.

The immigration committee have
settled down for another season's
work. Mr. Miller has been em-
ployed as traveling agent, and will
start east within a few days. Op-
erations would have begun much
sooner, but the committee depend
altogether on other institutions for
their funds, and have been unable,
earlier in the season, to excite suffi-
cient interest in the work to secure
capital for commencing. We have
an excellent committee, headed by
Mr. Thomas McKay, in Mr. Miller
we have a tried man who has proved
himself eminently qualified for the
duties he has undertaken, and we
have a country which awaits settle-
ment, a country full of richness, easy
of access, free from the blizzard and
one which has already proven itself
a superior wheat growing belt. With
such advantages our settlement
must soon make rapid advance in
numbers.

The interests of Saskatchewan
demand that the new Minister of
Agriculture, whoever he may be, give
speedy attention to the question of
immigrant buildings in our Town.
Mr. Carling saw the justice of our
claim and promised that a sum for
their erection would find its way
into this year's estimates. The
Government should see that his pro-
mise is faithfully carried out.

CARD.

To the Electors of the District of
Saskatchewan:

GENTLEMEN, Allow me to thank you
very cordially for the high honor you have
done me in electing me for the second time
as representative of our District in the
Dominion House of Parliament. The re-
sponsibility of the position is great, and it
will be my endeavor so to act as to justify
the great confidence you have reposed in me.

I am, gentlemen,
Yours very respectfully,
D. H. MACDOWALL.

**Coughs,
Colds, Croup.**
Allen's Lung Balm was introduced
to the public after its merits for the positive
cure of such diseases had been fully tested.
It excites expectoration and causes the Lungs
to throw off the phlegm or mucus; changes
the secretions and purifies the blood; heals
the irritated parts; gives strength to the diges-
tive organs; brings the liver to its proper
action, and imparts strength to the whole sys-
tem. It is the immediate and satisfactory
effect that it is warranted to break up the most distressing cough
in a few hours' time, if not of too long standing. It contains no opium in any
form and is warranted to be perfectly harmless to the most delicate child. There is no
real necessity for so many deaths by consumption when Allen's Lung Balm will pre-
vent it if only taken in time. For Consumption, and all diseases that lead to it, such as
Coughs, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs, ALLEN'S
LUNG BALM is the Great Modern Remedy. For Croup and Whooping Cough
it is almost a specific. It is an old standard
remedy, and sold universally at 50 cents
and \$1.00 per bottle. The 25-cent bottles
are put out to answer the constant call
for a Good and Low-Priced Cough Cure.
If you have not tried the Balm, call for a
25-cent bottle to test it.

Advices from St. Petersburg state that by order of the Czar, all restrictions have been removed from the emigration of Jews, and the authorities everywhere are instructed to facilitate such emigration. London, March 11.—A dispatch from Tunis gives an account of a dreadful disaster at a place called Menzel, in the vicinity of Gabes. A children's service was in progress in the synagogue at that place, when, without warning, the walls of the building collapsed and the roof fell to the floor with a crash that was heard all over the town. Hundreds of people hastened to the spot to find that the whole congregation had been buried beneath the fallen walls and roof. The shrieks of the struggling victims, held fast by heavy beams, stones etc., horrified the spectators, rendering them powerless for the moment to do anything toward rescuing the injured from their terrible position. A few cool headed ones, however, took the lead and the work of extricating the victims began. Within a short time fifty women and bleeding men, women and children were taken out and cared for, and four dead bodies, crushed out of all semblance of humanity, were removed to the dead house. The number of killed cannot even be approximately estimated. It is known that the building was crowded with people, and hundreds of dead bodies must still be buried beneath the tons of debris not yet removed.

A great many people have lately been swindled by so called prize competitions, the only object of which was to deceive the public and realize money for the promoters. Mushroom journals have sprung up and offered wonderful inducements to subscribers, who on taking the cunningly laid bait found both the journal and the prizes worthless. The publishers of the *Dominion Illustrated* have learned that doubts are expressed regarding the genuineness of the offers they have made in connection with their prize competition, to set all doubts at rest they now announce that any dissatisfied prize winner in their competition may exchange a prize for the cash value at which it is rated in their published list. Their only object in offering prizes has been to secure a larger permanent circulation, and to this end their journal has also been greatly enlarged and improved. The nature of the prize competition makes it a beneficial literary exercise for all, apart altogether from the question of prizes. A journal with a well established reputation, and which is constantly aiming to improve its literary and illustrative contents is not of the sort that breaks faith with subscribers. The response to their generous offer has already been most gratifying. On receipt of 12 cents in stamps the publishers (The Sabiston Litho and Pub. Co., Montreal) will forward to any address a sample copy of the journal with terms, full particulars etc.
